This course has been a 10-year work in progress. Kevin Sheldahl is a retired Deputy Sheriff who worked as a K9 handler for his entire career. He is an internationally recognized police dog judge along with being a judge in the American Schutzhund dog sport. Kevin is a registered expert witness in federal and state courts on public safety K9 cases.

Kevin's company (k-9services.com) trains and certifies public safety officers. His students get certified as bomb dog handlers, narcotic dog handlers, cadaver dog handlers, and wildlife detector dog handlers. His in-person courses are 6 weeks long. To date, he has run 69 of these six-week courses with an average course having 10 to 15 new dog handlers.

Our online course is very detailed. We have included written text that is supported by over 300 training videos. In our course, you will learn about primary and secondary rewards, single and double blind searches, handling search pattern techniques, and exercises that teach new handlers how to lay out their searches. You will learn how and when to introduce distractions and diversions along with when and how to introduce the dog to environments that it will be expected to work in.

This course is only available at Leerburg Online University.

This kit was put together for detection dog handlers. Store your odors in a durable, foam-padded case in the provided glass jars.

Available in (12) 2oz Jars or (6) 9oz jars.

These kits are good for K9 police and public safety departments.

Supply your own odors.

LEERBURG'S NEW SCENT TRAINING KITS

LEERBURG'S ONE
ODOR SCENT KIT
DSP0003018
\$30.00

Ed Frawley designed the one odor scent kit for trainers who prefer to keep their training aids separated.

Law enforcement uses one odor kits to train detection dogs to find hard drives and thumb drives. These kits are also good for starting a single odor in sport detection for organizations like AKC, UKC, CKC, & NACSW.

Pick Your Odor

Our 5 odor scent kit was designed by Ed Frawley and Leerburg's IT team. For years, Leerburg has sold scent kits for the various dog sports and law enforcement. Our new kits which are 3D printed in-house at Leerburg, are half the size as the larger kits.

These kits are good for sport detection in AKC, UKC, CKC, & NACSW scent work competitions.

Empty No Odor Drams available to fill with your own odors.

Our odor box is used to insert scent items. Each odor box comes with a sliding top with air vents and a built in earth-magnet which allows them to be hidden on or in metal surfaces.

We made the decision to offer our odor boxes separately because they work so well in training any style of detector dogs - both in law enforcement and in sport scent work.

3D PRINTED AT LEERBURG. AVAILABLE IN A VARIETY OF COLORS.
