## THE PRINCIPLES OF DOG TRAINING 2 WITH MICHAEL ELLIS

In Michael's first course, students built a solid foundation and communication system with their dog. This course is a continuation where Michael Ellis takes your training further by applying these new skills to more advanced behaviors and real-world situations. Learn how to chain exercises together to build complex obedience. Topics include the final 3 position changes, focused heeling, formal retrieve, jump work, advanced recalls, finishes, and loose leash walking. Each lesson helps strengthen clarity, control, and teamwork between you and your dog.

# DEALING WITH DOMINANT AND AGGRESSIVE DOGS WITH ED FRAWLEY

SCAN TO ENROLL

Led by Ed Frawley, this course teaches students how to understand, manage, and safely live with dominant and aggressive dogs. The majority of the content consists of detailed lectures that explain the causes of aggression and offer practical, realistic solutions. Trainers should be aware that there are no quick fixes or secret techniques that will resolve most aggression issues. However, with the right approach and commitment, many of these dogs can be safely managed. This course is designed to show you how to do that. This course offers guidance based on experience, not shortcuts.

## BASIC DOG OBEDIENCE WITH ED FRAWLEY

This course is the result of over 35 years of experience and refinement. Since producing his first obedience video in 1982, Ed Frawley has continually updated and improved course content, leading to this expanded 2018 version. This course is built around a reward-based system, known as marker training—a simple concept that takes thoughtful practice to master. This course explains how to clearly communicate with your dog, build engagement, and turn training into a game both you and your dog enjoy. With our methods, your dog will *choose* to engage with you, not just obey.

# TRAINING YOUR DOG TO COME WHEN CALLED EVERY TIME WITH ED FRAWLEY

SCAN TO ENROLL

Teaching a reliable recall is one of the most important skills you can train—it can save your dog's life. This course outlines a clear, step-by-step system rooted in reward-based training. You'll learn how to build a strong communication system, teach your dog to respond around distractions, and generalize the behavior across different environments. We break the recall into small, manageable steps taught with motivation and clarity. The end goal is a willing and confident dog that doesn't hesitate or think twice when recalled.

# THE POWER OF PLAYING TUG WITH YOUR DOG

WITH MICHAEL ELLIS

SCAN TO ENROLL

Renowned trainer Michael Ellis explains why toy rewards are a powerful part of training and teaches the essential "Rules of Play" for tug: play enthusiastically, release on command, and return the toy. This course covers 10 different tug presentations, how to build drive, avoid equipment bias, and introduce distractions. You'll also learn how to safely play tug to prevent hand biting and how to work with puppies during teething. Michael's step-by-step approach makes tug training fun and effective for both dog and handler.

## RAISING YOUR PUPPY

WITH MICHAEL ELLIS

Everything starts with how we raise our puppies. In this course, Michael Ellis guides you through selecting a puppy, bringing them home, and setting up management and socialization routines to build confidence and prevent behavioral issues. You'll learn early engagement techniques, restrained recall, and how to develop essential drives through play and training. Michael also explains how to apply learning theory and marker training to shape behaviors effectively. Michael's training methods will teach you how to raise a motivated and well-adjusted dog for any training discipline.
