MICHAEL ELLIS SEMINAR

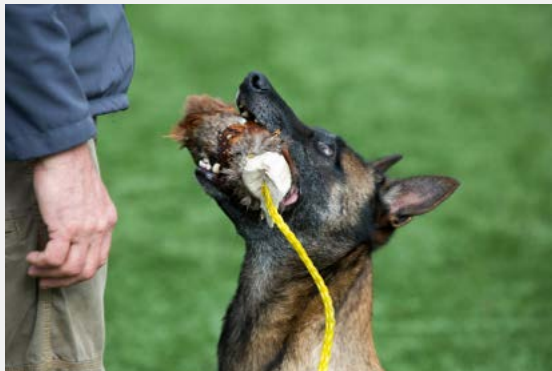

LEERBURG.COM/ON-THE-ROAD2021.PHP

Michael will be coming to Leerburg in September 2021!

Michael is an internationally renowned dog trainer and teacher with nearly forty years of experience in competitive dog sports and companion dog training.

Michael started his career as an instructor for dog trainers in 1996, when he began giving seminars and clinics to training clubs and organizations around the world. Over the next thirteen years he taught extensively to a very diverse group of professionals and hobbyists, from competitive sport trainers, police departments, and the US military, to search and rescue groups, service dog agencies, and pet dog trainers. During this period Michael taught over three hundred seminars in the US, Canada, and South America, that comprises more than one thousand days of lecture and practical work, not to mention many hours of private training and coaching.

Michael's clear, concise, and patient style of communicating made him one of the most popular coaches of trainers in the country, and he did much to popularize the use of reward-based techniques in the world of protection sports.

LASER DIRECTIONAL TRAINING FOR POLICE AND MILITARY DOGS WITH JENS FRANK

ONLINE COURSE ~~\$75~~ \$50

UNIVERSITY.LEERBURG.COM/CATALOG/VIEWCOURSE/CID/136

This course goes into a great deal of detail on how to train a scent detection dog to go to a laser dot and sit, waiting for an additional command to search (either for explosives, a human or contraband). Laser directionals are an easy way of sending the dog to a specific spot or object at a distance from the handler. It is far less time-consuming than training a dog to be guided with verbal directional cues over radio. You will need a laser for this training.

FOUNDATION OF LASER DIRECTIONALS FOR BUILDING SEARCHES WITH JENS FRANK

ONLINE COURSE ~~\$65~~ \$40

UNIVERSITY.LEERBURG.COM/CATALOG/VIEWCOURSE/CID/143

In this course, you will learn to train the dog to go to the laser dot and start searching for a human target. We start the training in a state of low arousal to avoid creating issues with the dogs making sounds or acquiring other non-desirable behaviors. The dog should already be trained to reliably go 50m to laser dot and sit. The dog should also have had basic bite work training. It should have a good grip when it bites and it should understand targeting. You will need a laser for this training.

BASIC DOG OBEDIENCE WITH ED FRAWLEY

DVD \$65 • STREAM \$60 • ONLINE COURSE \$65

UNIVERSITY.LEERBURG.COM/CATALOG/VIEWCOURSE/CID/5

Over the past 30 years, dog training has gone through a number of new and exciting evolutions. Today, we use reward-based training (marker training) to turn the learning process into games in which our dogs are taught new behaviors (i.e sit, down, come, loose leash walking). Our goal is to have a willing and engaged dog that looks forward to the next training session.
