Ed Frawley & Cindy Rhodes

Cindy Rhodes with Stella, Rush, & Daisy

Leerburg Enterprises, Inc. is a family owned business that was started in 1980 by Ed Frawley, who has owned and trained dogs since 1960, and began producing training videos in 1982. He also began breeding dogs in 1978, and continued to breed working bloodline German Shepherds for 35 years, but retired from breeding a few years ago to devote more time to Leerburg.

During the 1980s, Ed competed in AKC obedience, tracking competitions, and Schutzhund, where he titled a number of dogs. In the late 80s he started training police service dogs, and in the 90s Ed was a K9 handler for the local Sheriff's Department, during which time he also worked as a K9 handler with a regional multi-department drug task force.

In 1994, Ed went online with Leerburg.com. It was one of the very first dog related web sites, and has since grown to become the largest dog training web site on the internet with over 18,500 pages worth of information. Throughout the years, Ed has continued to produce over 860 dog training videos, including

780 free streaming videos---all of which are available on Leerburg's Video on Demand. The website also has a free training forum with nearly 20,000 registered members and over 380,000 posts.

Leerburg's reputation has been built on customer service and quality products. From the very beginning, Ed's philosophy on selling dog related products was to only offer products he would use to train his personal dogs. He knew there were dog trainers that insisted on quality products, and rather than trying to compete with the big box retail stores or the pet food warehouses of the world, he chose to fill that niche.

Cindy Rhodes began training dogs when she was 13, and has bred Dobermans & Malinois under the kennel name Kaiserhaus since the late 80's. She has competed in AKC & CKC obedience and Schutzhund, and in 1990 she competed in the USA Schutzhund III Nationals with a Doberman female she raised from a puppy. Her sports of choice now are Mondio Ring and Agility. Cindy was also a professional dog groomer for 15 years, and has raised and trained dogs of many different breeds, including the Belgian Tervuren, Shetland Sheepdog, Welsh Corgi, Doberman, Belgian Malinois and most recently, Border Terrier.

Ed and Cindy have three sons. The oldest, Eric, lives in Houston and works in the commercial diving industry. The youngest, Andrew, left for basic training in the Air Force in the fall of 2012. Finally, in October of 2011, his son Jeff Frawley came to work here at Leerburg after 7 1/2 years of military service, which included tours in Iraq and Afghanistan. During his years of military service, Jeff served in every position of an airborne infantry platoon with the 82nd Airborne from rifleman up to a squad leader, and also spent time training cadets at West Point.

Jeff grew up here at Leerburg and has lived with dogs his entire life. He was even on the cover of one of our Leerburg catalogs over 20 years ago when he was just 6 years old. When Jeff was 8, his first job was at Leerburg for \$1 per hour as chief socializer of puppies. When he was 10, he began helping Ed in the kennel, and by the time he was 14 he had helped deliver more litters of German Shepherd puppies than we can remember. During his high school years, Jeff also went with Ed as a cameraman and filmed a number of training seminars and dog shows.

Now, Jeff is Leerburg's new business manager, and he also produces dog training videos and short commercials about Leerburg's products. We are very excited about the addition of Jeff to our Leerburg team.

VIDEO ON DEMAND

Leerburg On Demand was launched in 2011. Over the past 4 years we have continued to produce new titles, as well as improve the customer experience with On Demand videos. We feel that as more and more television and mainstream movies transition into online media platforms, DVDs will become a thing of the past.

Over the next year we have several new and exciting features being brought to Leerburg On Demand. To start with, we plan to launch an entirely new layout for the On Demand section of our website. This layout will not only make the site more visually pleasing, but it will also allow our customers to easily navigate through over 850 titles. We are in the process of reorganizing and categorizing the videos into a simple navigation system.

In 2015, we will also be launching an all-new streaming video player. Our new player will allow viewers to skip through chapters just like on a DVD. It will also allow viewers to place bookmarks throughout the videos, which will allow them to come back and start at that exact point. We feel these 2 features alone are going to improve the way people can watch and process the information being presented through streaming video.

Leerburg accounts will also become seamless connecting all customer features through out the website. Your Leerburg account will now store your On Demand video library, previous orders, web board info, as well as any online training courses you are enrolled in. All purchased videos are tied to the user's account, and can be accessed anywhere by simply logging in. This cuts out the hassle of keeping track of DVDs, and eliminates shipping costs altogether.

Last year we began hosting our videos from over 50 servers on every continent except Antarctica. These new servers now allow us to stream our videos throughout the globe, as well as improve the quality for those with less optimal internet connections. Leerburg On Demand is available on all computers, smart phones, and tablets.

Instant Access When You Purchase a DVD

We're very excited about Leerburg On Demand because we believe online streaming is the future of the video industry. From now on, whenever you purchase any of our Leerburg DVDs you will have the option to get free instant access to any videos you've purchased, including our DVD sets. This means you can begin watching your video immediately after checking out, before the DVD even arrives in the mail. To take advantage of this, all you need to do is sign up and log in with a free Leerburg account. This is especially beneficial for our international customers who would otherwise have to wait weeks for their shipment to arrive.

Purchase A Streaming Video and Save on the DVD

If you purchase a streaming video and decide you would like to own the DVD as well, you can put the amount you paid for the streaming video toward the DVD purchase. When you buy the streaming version of any of our DVDs, you will automatically receive a personal, single-use coupon code for the amount you already paid off the price of the DVD. If you paid \$35.00 for the streaming version of a \$40.00 DVD, you can use the coupon to save \$35.00 on the DVD purchase. If the streaming video is the same price as the DVD, you can purchase the DVD for free and will only have to pay the cost of shipping.

We have put a lot of time and effort into developing this revolutionary new streaming video application and we're very proud of the way it has turned out. You can find Leerburg On Demand on our website at leerburg.com/flix. To learn more, check out our FAQ page at leerburg.com/flix/faq.php.

Your Puppy 8 Weeks to 8 Months

1 Hour, 59 Minutes | leerburg.com/120.htm

DVD | #120-D \$40.00
Video on Demand | #S120 \$30.00

Over the years, this DVD has been one of our most popular training videos for new puppy owners. This training video answers all the questions new puppy owners have concerning the care of their new puppy. This DVD was originally produced to be given to every Leerburg Puppy Customer. The intent was to help Leerburg Puppy Customers get through the first 8 months of the puppy's life.

Basic Dog Obedience

4 Hours | leerburg.com/302.htm

DVD | #302-D \$40.00
Video on Demand | #S302 \$40.00

The goal of this video is to teach people how to train their own dog to become a well mannered family pet. The problem with taking your dog to obedience class is that the dog is expected to learn new commands under extreme distraction (i.e. when it is surrounded by 10 or 20 other dogs). This is not the correct way to train a dog. In fact, it's totally unfair to the dog.

The Power of Training Dogs with Markers

3 Hours, 33 Minutes | leerburg.com/219.htm

DVD | #219-D \$40.00
Video on Demand | #S219 \$30.00

Dog training is a learned skill. The goal of this DVD is to introduce dog trainers to the details of training with markers. Once they grasp the concept and learn to apply it to their dog training they will create dogs that become problem solvers and dogs that love training. Once trainers learn how to apply the fundamentals of marker training the concept can be applied to any dog sport, including bite work.

Living with Your Puppy Establishing Pack Structure

2 Hours, 31 Minutes | leerburg.com/119.htm

DVD | #119-D \$40.00
Video on Demand | #S119 \$30.00

Every new puppy owner has the same image of what they want their new dog to be like as an adult. First and foremost, everyone wants a great relationship with their dog but beyond that, those who plan on keeping their dog in their home want a calm, well-mannered, obedient house dog that minds and respects their family and friends.

Establishing Pack Structure with the Family Pet

4 Hours, 9 Minutes | leerburg.com/308.htm

DVD | #308-D \$40.00
Video on Demand | #S308 \$30.00

This DVD teaches the way I establish pack structure with a new dog when I bring it into my home. The goal is to establish leadership and still allow the dog to maintain his dignity. When I introduce my rules I do so in ways that create a level of communication and respect.

How to Raise a Working Puppy

1 Hour, 15 Minutes | leerburg.com/117.htm

DVD | #117-D \$40.00
Video on Demand | #S117 \$30.00

This is not a bite training video. It is a video teaching people how we used to raise our pups here at Leerburg. This video outlines a step-by-step manner how to socialize, imprint, and prepare your puppy for his or her working career. This is a common sense approach that anyone can do. The key to raising a successful working puppy is to have a plan and make the best use of the time you spend with your dog.

Dealing with Dominant & Aggressive Dogs

3 Hours, 30 Minutes | leerburg.com/301.htm

DVD | #301-D \$50.00
Video on Demand | #S301 \$35.00

This DVD was produced to help people analyze their dog's aggression problems. It provides information to help owners solve these problems. This DVD provides enough information to help dog owners either solve these problems themselves or determine if a local individual is qualified to assist in their dominant or aggressive dog problems.

Remote Collar Training for the Pet Owner

2 Hours, 45 Minutes | leerburg.com/318.htm

DVD | #318-D \$40.00
Video on Demand | #S318 \$30.00

Our DVD explains what a dog should know before starting e-collar training. It explains how to determine what level of stimulation your dog should be trained with. Every dog is different and every situation is different. I explain the concepts of using the collar and the protocol for taking a dog through each step of training.

Basic Dog Obedience

leerburgonlineuniversity.com/Course/view/42

Self Study | \$99.00

This course is set up as a self-study with 6 modules. Students will receive 1 year to finish the course.

In our Basic Obedience course, students will be able to move through the course as quickly as they like. In other words, if they want to jump ahead to see what's in module 5, they can do exactly that. We recommend that new students progress through the modules and segments in the order we have established.

This course is designed for people who are new dog owners and have never trained a dog before, as well as for those who have owned a dog for years but now find it's time to learn how to do a better job training their dog.

The course can also be recommended for people who work in humane societies or shelters, or people who want to start a dog-training business and are looking for a way to start learning the nuts and bolts of dog training.

Michael Ellis

Michael Ellis is an internationally renowned dog trainer and teacher with 30 years of experience in the competitive dog sports. He has taught extensively to a very diverse group of trainers, from competitive sport trainers, police departments, and the US military, to search and rescue groups, service dog agencies, and pet dog trainers. Michael's clear, concise, and patient style has made him one of the most popular coaches of trainers in the country. He has given over 300 seminars in the United States, Canada, and South America, that's well over a thousand days of lecture and practical work in the last eight years alone, and as a result, has been one of the driving forces in popularizing reward based training systems for the protection sports.

Michael has competed in and done decoy/helper work for several national level competitions, both in Schutzhund and ringsport. He was also one of the first Mondioring decoys certified in the US. He has coached national champions in several disciplines, and many national and international competitors, but he is perhaps most proud of the hundreds of club level and beginning trainers that he has helped to improve their communication and physical skills. He was a past president of the American Working Malinois Association and a former board member of the US Mondioring Association.

Michael, in partnership with trainer Lisa Maze, breeds Malinois under the kennel name Loups du Soleil, one of the most successful breeders of working Malinois in North America.

The Foundation of Dog Training with Michael Ellis

leerburgonlineuniversity.com

Online Course | **Coming Soon!**

We plan to release the first Online course with Michael Ellis in the first quarter of 2015. This course is going to take skills taught in several of the Michael Ellis DVDs and tie them together to create one seamless training system for you and your dog. This will be a fully interactive course. Watch our website for more information.

The Power of Training Dogs with Food

2 Hours, 7 Minutes | leerburg.com/220.htm

DVD | #220-2-D \$65.00
Video on Demand | #S2202D \$50.00

The foundation of Michael's training system lies in marker training. The power lies in how markers are applied within his training program. We show you how to take your dog out into new and distracting environments and have a dog that ignores the distractions and maintains a training minded attitude. When you can establish a relationship like this, you have a dog that is ready to learn behaviors and exercises.

The Power of Playing Tug with Your Dog

5 Hours, 25 Minutes | leerburg.com/221.htm

DVD | #221-D \$65.00
Video on Demand | #S221 \$50.00

Michael starts with a lecture on why and how to play tug with your dog. He demonstrates technique with his dog Pi and then with untrained dogs and untrained handlers. If your goal is to do competition obedience, agility work, or a biting sport, playing tug the right way is an integral part for all those endeavors.

Focused Heeling with Michael Ellis

3 Hours, 57 Minutes | leerburg.com/223.htm

DVD | #223-D \$65.00
Video on Demand | #S223 \$50.00

The old "yank and crank" methods of training heeling have gone by the wayside. The fact is a good portion of the training in this DVD can be done without a leash and without corrections. In fact, introducing corrections is the very last step in focused heeling.

Teaching Protection Skills without a Decoy

2 Hours, 55 Minutes | leerburg.com/225.htm

DVD | #225-D \$65.00
Video on Demand | #S225 \$55.00

Trainers only need a friend or family member that will handle a bite wedge, a bite tug or a high value toy to assist them in rewarding correct behavior. In the training steps, Michael explains how to start the training for each skill. He also explains when to add drive and stressors for these various protection skills.

Training the Jumps with Michael Ellis

2 Hours, 50 Minutes | leerburg.com/226.htm

DVD | #226-D \$65.00
Video on Demand | #S226 \$50.00

In this jump DVD, Michael explains how to manage your dog's drive during the jumping process. This DVD explains how to determine how much drive your dog needs to learn to jump. Some lower drive dogs need to have their drive increased while high drive dogs need their training steps modified to allow them to concentrate on what you are asking them to do.

Training the Send Away with Michael Ellis

2 Hours, 50 Minutes | leerburg.com/227.htm

DVD | #227-D \$65.00
Video on Demand | #S227 \$50.00

The DVD opens with a lecture on the concept and training steps by Michael Ellis. Video chapters include: working with puppies, when to use touch pads vs. a toy, training the whistle back, and more. Michael has included many training steps that cover different types of dogs. The beauty of this training DVD is that it has something for the advanced trainer and as well as a step by step program that new trainers can follow.

Advanced Concepts in Motivation

3 Hours, 17 Minutes | leerburg.com/228.htm

DVD | #228-D \$65.00
Video on Demand | #S228 \$50.00

The work in this video teaches a trainer the advanced concepts of how to motivate a dog. The techniques work for dogs of all breeds and sizes, and can be used for any dog sport. The goal is to teach dog trainers how to turn a reward into an event for their dog. Once trainers can learn these skills, they can manipulate the motivation and drive of their dogs.

Finishing Work: Reducing the Frequency of Rewards and the Use of Punishment

2 Hours, 33 Minutes | leerburg.com/229.htm

DVD | #229-D \$65.00
Video on Demand | #S229 \$50.00

This DVD covers how to prepare your dog for a competition. It teaches people who train with markers how to wean their dog off rewards in preparation for taking their dog into any dog sport competition. It is important to do it correctly and still maintain motivation and drive.

Training the Recall with Michael Ellis

59 Minutes | leerburg.com/230.htm

DVD | #230-D \$45.00
Video on Demand | #S230 \$30.00

Training the recall is the most important behavior your dog will ever learn. This video includes restrained recalls, recalls in an environment free of distractions, recalls while focused on something else, increasing intensity of competing motivator for "call away," and much more!

Leash Skills with Michael Ellis

1 Hour, 12 Minutes | leerburg.com/233.htm

DVD | #233-D \$65.00
Video on Demand | #S233 \$55.00

The majority of dog owners only use their leash when taking their dog for a walk. A large number of those people are being pulled down the street each and every time they attempt to walk their dog. No one enjoys this experience, which is why we have produced this DVD on how to use your leash as a tool to communicate with your dog. Through a process called "leash pressure," we can teach the dog how to politely walk on the leash by implementing the skill we call "Loose Leash Walking."

The Foundation of Object Guard Training

2 Hours, 10 Minutes | leerburg.com/126.htm

DVD | #126-D \$40.00
Video on Demand | #S126 \$30.00

In this video, Michael Ellis teaches dog handlers the fundamentals of training the object guard for the various ring sports. This video will teach trainers how to establish a proper foundation for the object guard. It does not teach the advanced skills needed to finish a dog in this exercise.

Training the Retrieve with Michael Ellis

2 Hours, 58 Minutes | leerburg.com/224.htm

DVD | #224-D \$65.00
Video on Demand | #S224 \$50.00

This DVD with Michael Ellis is by far the most comprehensive step-by-step training DVD on teaching a dog to retrieve that we have ever seen. Because the system is founded in markers, there is a very minimal amount of force used in our training. It is our belief that a dog should not be force trained to retrieve.

The Foundation of Puppy Bite Work

4 Hours | leerburg.com/222.htm

DVD | #222-D \$65.00
Video on Demand | #S222 \$50.00

This DVD covers training puppies that are 8 weeks through adolescence. Michael divides the life of a working dog into five categories: Pre-Teething, Teething, Adolescent, Young Adult, and Adult. This DVD covers in step by step detail, the foundation of bite work with 8 week old puppies up through teaching adolescent dogs to bite arms and legs on leg sleeves.

The Electric Collar: Selecting & Conditioning Your Dog to the Collar

2 Hours, 15 Minutes | leerburg.com/231.htm

DVD | #231-D \$65.00
Video on Demand | #S231 \$50.00

This DVD covers how to select the correct remote collar for your dog, how to determine the levels to use during your training, and how to properly condition your dog to the electric collar. The DVD will also cover the prerequisites for what your dog should already know prior to layering the remote collar over behaviors.

The Electric Collar Part 2: Common Applications of the E-collar

1 Hour, 29 Minutes | leerburg.com/232.htm

DVD | #232-D \$65.00
Video on Demand | #S232 \$50.00

This DVD covers the 3 major training categories we use the e-collar for; obedience, high arousal activities, and management. In this DVD you will learn how to take a dog that has been properly conditioned to the collar and in only a few short training sessions achieve the desired results through low level stimulation.

Forrest Micke

Forrest Micke is an American dog-training and behavior educator, wellness advocate, and public speaker. His international seminar work and popular online educational classes have influenced thousands of students globally.

From 2007 – 2010 Forrest gained national recognition for his development of training and rehabilitation programs for difficult dogs within shelter and rescue programs. His training and management programs have helped hundreds of 'last chance' rescue dogs and owners gain the skills and aptitude necessary to assimilate into homes and lifestyles across the country.

His popular seminar series on 'The Everyday Working Dog' has been presented over 60 times in 5 different countries, over the past 3 years. His current interest is 'Neurological Proclivity: The integration of inherent (breed-specific) motor patterns to fuel positive reinforcement-based working dog programs.'

Forrest is known for his innovative, relationship-centered training approach and his passionate and personalized teaching style. He's been called inspiring, genuine, motivating, and outside the box.

Forrest lives in the San Francisco Bay area of California with his Border Collie, Amos, and his two Belgian Malinois, Endy and Elzer.

Teaching Engagement Skills

leerburgonlineuniversity.com/Course/view/44

Self Study | **\$39.00**

Our course with Forrest Micke will teach students why ENGAGEMENT is the foundation for all dog training. They will learn why engagement should be the foundation for every pet dog training program. Those students who want to get involved in any dog sport will learn why engagement needs to be the motor that drives their training program. More information available online.

The Heeler's Toolbox I - Beginner

leerburgonlineuniversity.com

Self Study | **\$149.00**
Auditing | **\$199.00**
Working | **\$299.00**

The first class in this 3-part series exposes students to groundwork skills and behaviors fundamental to the heeling relationship as well as core concepts necessary for preparation to more advanced stages of the training program. Focuses heavily on handler and canine skill building, individual team troubleshooting, and maintaining a relationship-centered training partnership.

The Heeler's Toolbox II - Beyond the Basics

leerburgonlineuniversity.com

Auditing | **\$149.00**
Working | **\$299.00**

The objective is to break down and explore 'post foundation' heeling skills and concepts that affect precision, attitude, and sustainable performance within competitive heeling teams. Goals are to build off of foundation concepts; further equip both dog and handler with the necessary skills to maximize the relationship and heeling experience; and create knowledge and confidence to fluidly implement skills into a continued heeling program.

The Heeler's Toolbox III - Advanced

leerburgonlineuniversity.com

Auditing | **\$149.00**
Working | **\$299.00**

The 3rd installment of the Heeler's Toolbox Series helps students bridge the gap between their current training program and their competitive preparation program. This course also introduces students to advanced skills and concepts characteristic of successful heeling partnership. This course encourages students to take practical and creative steps to a more precise and competition ready obedience relationship.

Mark Keating

Mark Keating is a dog trainer from Hudson, Wisconsin. He has been training dogs professionally since 1998 in various forms of obedience, agility and protection work. He works and trains primarily at Red Star Kennel in Hudson, where he serves as one of 3 trainers who conduct private lessons, teaches group classes, and handles and trains dogs who stay for the boarding and training program.

Mark is a retired competition French Ring/Mondio Ring certified trial decoy. Mark has officiated over 30 trials as a decoy under primarily French Judges, including a regional selective. In 2007, Mark competed in the North American Ring Association Decoy Super Selection. Mark took first place amongst the American Decoys earning the honor of the Decoy of the Year award, and the Golden Baton award.

As a handler, Mark has handled two dogs in French Ring. A Dutch Shepherd/German Shepherd cross named Kalib, whom he brought to the Ring I level, and a Belgian Malinois named Lot whom he brought to the Ring III level. In June of 2008, Mark and Lot set a record for highest score to that date in Ring II history with a score of 292.8 out of 300 under French Judge Philippe Touy.

As a general dog trainer, Mark has been assisting dogs and handlers in the Midwest since 1998. From teaching group obedience classes, to behavior modification, Mark has worked with over 1000 dogs to date. Since 2004, Mark has been training exclusively at Red Star Kennel, in Hudson Wisconsin. Mark teaches private lessons in obedience, behavior problems and modification, competition preparation, sport style obedience, agility, and protection work, puppy imprinting and socialization, puppy/dog purchase consulting, in home lessons and search work.

Mark has taught numerous seminars across the US in sport style bitework in sports such as French Ring, Mondio Ring, PSA, and Schutzhund. Mark has also conducted seminars with with Police Departments teaching handlers how to not only work each others dogs, but communicate more clearly with their own dogs. Mark has also taught seminars in drive cultivation and channeling for State, as well as FEMA certified Search and Rescue teams.

ONLINE COURSE

The Mechanics of Working a Dog in a Bite Suit

2 Hours, 19 Minutes | leerburg.com/270.htm

DVD | #270-D **\$55.00**
Video on Demand | #S270 **\$45.00**

This is the first of our DVD series with Mark Keating on decoy work. This series has two purposes: The first is to teach decoys correct and safe training concepts in a bite suit. The second is to teach dog handlers exactly what, why, and how a decoy should work a dog in a bite suit. We want to give handlers the information they need to be able to discuss and communicate a training plan with their decoy.

Basic Bite Suit Presentations & Techniques

1 Hour, 24 Minutes | leerburg.com/271.htm

DVD | #271-D **\$55.00**
Video on Demand | #S271 **\$45.00**

This is the 2nd DVD in our series on decoy work. Now that you understand the mechanics of working the dog, you need to know how to present the dog with the right picture so they will bite where you want them to. This DVD teaches several different ways to present leg bites, both front & back, along with upper body presentations. In this DVD, you will learn all of the main biting surfaces of the suit and how to show the dog where you want them to bite.

Basic Catches in the Bite Suit

2 Hours, 26 Minutes | leerburg.com/272.htm

DVD | #272-D **\$55.00**
Video on Demand | #S272 **\$45.00**

In the 3rd DVD in our series with Mark Keating, you will learn how to take the targeting skills from the 2nd DVD and apply them to catching dogs. Catching dogs on a suit is the ultimate goal of anyone learning to do decoy work. The skills taught in this DVD will give you insight into how to properly absorb the impact of a dog being sent off leash from a distance.

Leerburg's Relationship Games

2 Hours, 6 Minutes | leerburg.com/130.htm

DVD | #130-D **\$50.00**
Video on Demand | #S130 **\$40.00**

This DVD will help you build that relationship through 8 different games, with training being the main idea behind each game while also making it fun for you and your dog at the same time. Everyone can benefit from these games. We have presented them in a way that someone with no experience training dogs can understand the "what" and the "why" of the game.

Relationship Games

leerburgonlineuniversity.com

Interactive Course | **\$250.00**

This course shows you eight games that develop and strengthen your relationship with your dog. Each incorporates the principles and techniques of reward-based training that we use with our dogs at Leerburg and teach in our DVDs. We think you'll find that these games are fun for both you and your dog.

Coming in 2015

Ed Frawley's goal, from the time he was a young boy, was to become a professional dog trainer and make his living training dogs. Ed's goal today has transitioned into helping others do the same. Over the next year Leerburg will be releasing several online training courses that will teach people how to establish and operate a variety of dog related businesses.

Leerburg recently finished filming and is now in the production phase of an online course on how to operate a dog walking business. In 2015, we will also be producing courses on how to set up and run a boarding kennel, as well as a doggy daycare. These courses, in conjunction with several future courses, are going to help people who are interested in turning their passion for dogs into their career.

The perfect solution for those dogs that like to over-communicate. Utilizes a proprietary low-current stimulation technique to humanely condition dogs not to nuisance bark. By setting the stimulation to the correct level, protection barking will continue while unnecessary barking is eliminated. Auto-mode feature senses the dog's barking habits and automatically increases the stimulation. Unique features make it the most humane and effective bark trainer available. Small receiver size 2.03" x 1.42" x 1.1", 1.9 ounces. Unique stimulation technology provides very clean stimulation without the head jerking often found with other bark collars. 100% Satisfaction Guaranteed. Proudly Assembled in the USA. leerburg.com/BL100.htm

Educator Electric Training Collars

Educator collars are lighter and more technologically current. Educator's tapping sensation is twice as intense as their pager mode, their tones are more pronounced, their stimulation is cleaner and has a higher intensity when needed. The stimulation dial on the Educator is easier to adjust and has the "lock and set" feature to prevent accidental over-stimulation, for 2 dogs each dog can be locked in to a different level. Educator's stimulation is of a medical grade type that does not cause head jerking but will obtain compliance.

Another technological advantage of Educator Collars is that they have the quickest stimulation in the industry. In other words from the time you push the button to the time stimulation starts is the shortest in the industry. This may be a subtle to many but competition trainers like it very much.

All of Educator's products have night lights. They have programmable modes allowing the user to select different uses for the buttons. All of the Educator transmitters float and are waterproof to 500' and can withstand 5000 Gs of shock. Comparable e-collars are good to 60' and 1000 Gs of shock, tough but not as tough. They have a quick-release belt/saddle/purse clip combined with the ergonomics of the transmitter make it easier to work. Einstein uses Biothane collar straps for unsurpassed durability. Comparing similar e-collars in other brands to the ET300 is like comparing a Yugo to a Ferrari but paying the same price.

Last but not least, the money is staying here in the US, all Educator collars and products are made in the USA. leerburg.com/electric_einstein.htm

PLUS Ecollars

TWO Receivers - ONE Transmitter
 This system is identical to the regular e-collar but with an extra receiver on the collar strap. The purpose is not to deliver a stronger stimulation, but allow us to not have the collar so tight. Regular systems require the collar to be very tight on the dog's neck to make sure the probes make contact. This system eliminates that issue. When dogs work, their neck muscles swell. A dog may start a training session with the collar fitting, but as his neck swells, the collar becomes tighter, restricting blood flow & breathing. This collar can be looser on the dog's neck while the probes maintain contact with the neck. Educator Pro 900 Expandable Ecollar

1 Dog Unit with Pager, Expandable to 3 Dogs. 1/2 Mile Range.
 The most advanced remote dog trainer ever devised. It boasts brand new, never-before-seen features that offer the most humane experience for dog and owner alike. This is the first completely customizable e-collar ever to be developed. The collar has 4 main function buttons that can be set to any of the 9 different stimulation modes. You can further customize each of these modes by setting a max level, changing the boost level, adjusting the volume of tone, as well as the type and amount of vibration.

This new ability to customize the features on an e-collar is unique to the Pro Educator. There are 2 ways to customize your collar: first, there is a program button that allows you to cycle each button through all 9 modes. You will have the ability to program the buttons on the fly, or you can use a user-friendly software program that allows you to connect the transmitter to your computer and set it up for your specific needs or training style. The software to customize your collar is free and can be downloaded using the link below. The software is currently only available for PC (sorry, Mac users).

The Pro Educator is expandable to 3 dogs. Additional receivers are sold separately. Directions on how to sync your extra receivers to the transmitter are very simple and can be found in the owner's manual. Once you have expanded the system into a 2 or 3 dog collar, you will also have the ability to set different types of stim, different max levels, and different boost levels for each dog. The collar can be set up to switch between dogs, or you can simply set up a different button for each dog.

The Pro Educator can also be purchased as a plus model. The plus model comes with 2 receivers programed to the same frequency, and also comes standard with a bungee collar in order to ensure good contact from both receivers. leerburg.com/pro900ts.htm

The Electric Collar: Selecting & Conditioning Your Dog to the Collar

2 Hours, 15 Minutes | leerburg.com/231.htm
DVD | #231-D \$65.00
Video on Demand | #S231 \$50.00

This DVD covers how to select the correct remote collar for your dog, how to determine the levels to use during your training, and how to properly condition your dog to the electric collar. The DVD will also cover the prerequisites for what your dog should already know prior to layering the remote collar over behaviors.

The Electric Collar Part 2: Common Applications of the E-collar

1 Hour, 29 Minutes | leerburg.com/232.htm
DVD | #232-D \$65.00
Video on Demand | #S232 \$50.00

This DVD covers the 3 major training categories we use the e-collar for; obedience, high arousal activities, and management. In this DVD you will learn how to take a dog that has been properly conditioned to the collar and in only a few short training sessions achieve the desired results through low level stimulation.

Bite Tugs

Tugs are a must for building drive and focus in young & adult dogs. They can be used as rewards in narcotics work, in obedience and tracking. Young pups are introduced to tugs when their mouth is big enough to grip. As they grow they will need a larger diameter tug. Colors may vary. leerburg.com/puppytug.htm

SEYNAEVE BITE SUITS

Mondio / French Ring Bite Suits

There are 3 types of Mondio/French Ring suits: **Competition, Semi Training, Training.** The TRAINING suit is the thickest and most protective, while the COMPETITION suit is the thinnest. Between those two is the SEMI TRAINING suit. Because the Competition suit is the thinnest, it is also much lighter in weight and more flexible than the Training suit, but it provides less protection.

Kimono Bite Suit

The Kimono Suit is the most protective suit for full bite training over the whole body. The suit is specially designed for training on the body area. The suit has a special cut to let dogs bite easier and safer on the front and back of the shoulder area. Due to its high protection level, this suit is not only very useful for sport training, it is also very popular with law enforcement and armed forces.

The Kimono jacket is different from all the other Mondio/French ring jackets and is made in a very different cut. There are no cutouts in the back and does not have separate arms. The cuts of the seams are above and below the arms. It is made to take the bite a lot in the shoulder, back, chest and upper arm area. In the beginning this jacket is a bit stiffer but it get more flexible with using.

The Kimono Suit uses the same pants as the Mondio/French Ring Semi Training Pants or the Mondio/French Ring Training Pants. Please see those pages for the bite suit pants.

Certification & Deployment Standards for the Police Service Dog with Kevin Sheldahl
1 Hours, 16 Minutes | leerburg.com/460.htm

DVD | #460-D **\$35.00**
Video on Demand | #S460 **\$25.00**

This DVD will take a look at police K9 certification standards and show how to convert them into a deployment standard. We will show how the certification standards that a police service dog must attain are used in a practical application. It is important that all police service dogs are trained for street deployment not simply for certification.

Muzzle Fighting for Police Service Dogs
1 Hour, 20 Minutes | leerburg.com/121.htm

DVD | #121-D **\$40.00**
Video on Demand | #S121 **\$30.00**

Working in muzzle is one of the least understood exercises in protection work. The video takes the viewer step by step through muzzle fighting. There is a real difference between what we show in this video, and what happens when someone just throws a muzzle on a dog and sends him after a helper without a sleeve. The goal of this video is to train a dog in muzzle to alert on a passive suspect located some distance from his handler.

The First Steps of Bite Training
2 Hours | leerburg.com/101-b.htm

DVD | #101B-D **\$65.00**
Video on Demand | #S101B **\$50.00**

The goal in producing this video was to show that a person with little or no dog training experience can understand how to lay the foundation for protection training. This video is a must for training new helpers. It identifies the drives a dog works in, critical distance, and avoidance. More information available online.

Training Personal Protection Dogs
1 Hour, 35 Minutes | leerburg.com/105.htm

DVD | #105-D **\$20.00**
Video on Demand | #S105 **\$20.00**

This video assumes a dog has already gone through bite development. This means "you and your dog" know and understand the material in our bite development videos. This video shows how to target the dog's bite to different parts of the body. This is taught in segments using body bite suits. More information available online.

Training Narcotic Detection Dogs
1 Hour, 45 Minutes | leerburg.com/109.htm

DVD | #109-D **\$25.00**
Video on Demand | #S109 **\$20.00**

This training video was produced in the early 1990's. The video shows how to train a detector dog to scratch at the location of odor. The video does not teach a passive alert. Today it is our opinion that the passive alert is a better way to train detector dogs. In this DVD we demonstrate how to start a dog in primary response training and how to advance through the training in a step by step manner.

The First Steps of Defense with Ed Frawley
2 Hours | leerburg.com/101-d.htm

DVD | #101D-D **\$65.00**
Video on Demand | #S101D **\$50.00**

For a dog to do police service, serious personal protection, or good Schutzhund work, it must have a solid foundation in defensive drive training. Before this can take place, the dog must have already gone through prey bite development and it must have reached mental maturity. Starting defense work too young can ruin a dog's working ability for life. More information available online.

Training a Competition Tracking Dog with Ed Frawley
2 Hours | leerburg.com/203.htm

DVD | #203-D **\$35.00**
Video on Demand | #S203 **\$25.00**

This video was filmed over a 3 year period in Germany & America. It is one of the most comprehensive studies ever done on sport tracking. This video uses all motivational methods to teach a dog to track.

Training Tracking Dogs S&R or Police with Ed Frawley
2 Hours, 5 Minutes | leerburg.com/205.htm

DVD | #205-D **\$50.00**
Video on Demand | #S205 **\$40.00**

This video shows how the RCMP can train a dog to follow a 1 hour old, 5 KM, unknown track that contains back tracks, road crossings, fence crossings, & articles. The RCMP has 3 levels of tracking. This video covers Level One.

Training Police Service Dogs
1 Hour, 40 Minutes | leerburg.com/104.htm

DVD | #104-D **\$25.00**
Video on Demand | #S104 **\$20.00**

This video on training a police service dog shows how to test a dog to determine if it has the necessary drive to do police work. Some dogs make excellent personal protection dogs but are not good enough for police work. We show exactly where to draw the line between a personal protection dog and a police service dog.

Bark & Hold Training for Police Service Dogs
2 Hours | leerburg.com/123.htm

DVD | #123-D **\$30.00**
Video on Demand | #S123 **\$25.00**

This video is directed towards the real world where police departments or professional trainers contracted by police departments do not have years to finish the training on a dog before it goes out on the street. It is not uncommon to take a selection tested dog and finish him in 6 to 12 weeks. For this reason the bark & hold training needs to be done quickly. The training methods in this video have that in mind.

MUZZLE SIZING:

It's important that customers measure their dogs to determine what size muzzle a dog needs. Some muzzles are identified as breed specific, this is not an accurate way to determine what muzzle your dog needs.

Dogs within a specific breed can have a wide variety of head measurements. It is impossible to say that one muzzle size fits all Rottweilers or one muzzle size fits all Dobermans or one muzzle size fits all Cocker Spaniels.

The only true way to determine what muzzle fits your dog is by measuring your dog's head in the manner in which we detail on our web site.

Check out all the muzzle measuring instructions, muzzle sizes and FREE videos at leerburg.com/muzzleft.htm

StarWalk

Meet the iQ Pet StarWalk, the best friend to your best friend. The StarWalk accompanies your dog by attaching to his or her collar, and gives you insight on daily activity levels through the lights directly on the device. You'll have a better understanding of how active your dog is and the ability to set goals, so you can be sure you're spending enough time outside with your dog every day.

Here's What To Do

Download app to set goals and track daily activity

Attach StarWalk to your dog's collar

Get motivated to reach goals and spend more time outside

Goals to Keep You Focused

Depending on your dog's current activity level, you'll want to set a daily goal in steps, with a higher step goal if you'd like to increase activity. You can check your progress using the StepLight system on the StarWalk, with each light representing 20% of your overall goal. When all 6 StepLights are lit, it means your dog has reached or exceeded that day's goal.

StarWalk Keeps Track of:

- Total steps
- Calories burned
- Active time
- Activity Type
- Distance traveled
- Temperature

More Than Just Pretty Lights

Most importantly, the StarWalk works with your dog around your schedule. After a long day at the office, a twice daily planned walk often happens after dusk. The night walk feature remembers how important visibility is to you and your dog's safety at night. A customizable color option is just an added bonus.

StarLight

- Increase visibility for evening stroll
- Notifies you of important alerts

StepLight

- Displays goal progress in 20% increments
- Idle alerts during the day

Goes Where Your Dog Goes

The StarWalk attaches to most dog collars you already own using a universal bracket attachment. Install the bracket on your dog's collar and you're good to go.

- Universal fit
- Hypoallergenic
- Waterproof
- Push tab release

Shown on Raine with the Hurtta Collar (page 12). Collar not included. Read more about the StarWalk at leerburg.com/StarWalk.htm

Puppy Jumping DVD

1 Hour, 23 Minutes | leerburg.com/420.htm

DVD | #420-D \$29.95

Every course your dog will perform is mostly jumps, so he should approach jumps with great confidence and an understanding of how to perform them. Susan Salo believes the development of these skills begins at the puppy stage—teaching young dogs to read and drive a path to their target (and person), to understand how to react to distances that are constantly changing, and to do so without producing extra strides where they are not needed.

Foundation Jumping 4-DVD Set

4 Hours, 23 Minutes | leerburg.com/419.htm

4-DVD Set | #419-D \$68.95

Every course your dog will ever run is primarily made up of jumps; yet, it is the least taught and least understood skill set in agility. Because a dog can jump doesn't mean that he knows how. As handlers we tend to focus on practicing drills that are designed to perfect the dog's understanding of our positional cues and handling maneuvers, and we neglect to offer the dog an opportunity to hone the skills needed to master each component involved in jumping.

Foundation Fundamentals 6-DVD Set

6 Hours, 34 Minutes | leerburg.com/408.htm

6-DVD Set | #408-D \$74.95

This program is designed for all dogs at any skill level. Build specific skills that your dog needs before you begin his obstacle training. It's very difficult to teach agility equipment to a dog if he's running around with a toy, leaving you to go sniff, mugging you to get his treat, etc. You can't train your dog to go over a jump or into a tunnel, much less chain together obstacles at speed, if he doesn't know how to focus on the task at hand.

Walking the Course What to Look For and How to Plan Your Run

36 Minutes | leerburg.com/459.htm

DVD | #459-D \$24.95

Do you know what you should be looking for when you walk a course? Walking the course effectively is one of the most important skills you can develop. Successful competitors are ones who can consistently read the course correctly and then execute their plan. Memorizing the order of the obstacles is much different from analyzing the course and planning a handling strategy.

Success with One Jump 2-DVD Set

2 Hours, 6 Minutes | leerburg.com/458.htm

2-DVD Set | #458-D \$49.95

It's finally here—a video that gives you all the tools to improve your skills as a handler, regardless of the size of your backyard! Success with One Jump is a 2-DVD set that gives clear instruction on more than 20 exercises that will help improve your dog's understanding of the key handling maneuvers in agility, from a simple front cross to a more complex pull-through to distance skills. A must-have for the seasoned competitor and novice handler alike.

What the Students are Saying...

"I appreciated that I could take the class at my own pace, as I really had trouble finding two full weeks to give to it, but was able to stretch it out and still view all the materials and work with my dog on the different skills. We are already making significant progress."

- Rebecca B. on [Teaching Engagement Skills](#)

"I'm a big fan of learning anything I can from anyone I can about dogs...especially working dogs. I was hesitant to buy this course because of the word "Basic" in the title. Boy was I wrong. There's something in this course for everyone no matter how well versed you are in training dogs."

- Joe L. on [Basic Dog Obedience](#)

"We had so much fun with this weeks homework! This really is where the rubber hits the road and all the work we have done in the previous course is the perfect prep for this."

- Tafline G. on [The Heeler's Toolbox](#)

"This course was AMAZING! I learned so much and am so impressed with you and your philosophy and method and style of teaching and training dogs. I will continue to take your on-line classes because even with all I have learned in this course I realize I have only touched the tip of the ice burg. I find it incredibly satisfying to use the methods and techniques and see almost instant results from the dog as long as I'm consistent. That is a biggy."

- Brenda B. on [Basic Dog Obedience](#)

"Thank you for running the course and for all the input and feedback over the last 8 weeks. I have really enjoyed taking part in the relationship games and have looked forward to each weeks games with excitement. Mark you make it easy to learn!! am taking away from this course so much knowledge and a greater understanding of how games are important to training my dogs. I hope that for future four legged additions to the household I can train and aim for a healthier, better relationship all round. "

- Helen P. on [Relationship Games](#)

"I am getting a service dog in May and you have brought together so many of the questions that I had in one course. Pointing out the commands and why they are used the way they are was eye opening. I will continue to use all that you have made available to us. I will be taking another course with you very soon."

- Norman on [Basic Dog Obedience](#)

In 1978 when Ed Frawley purchased his first video camera the last thing on his mind was "Someday I will teach people how to train dogs using a computer." Four years later (the same year Apple released the Macintosh for a meager \$1,995) Ed produced his first dog training video titled, Training the Competition Obedience Dog. It quickly became evident that it was impossible to teach everything there is to know about competition obedience in the amount of time you could squeeze into a single VHS tape.

For the past 30 years, Ed Frawley has been thinking of and implementing new and innovative ways to produce dog training material. While producing more material was important, he wanted to focus on ways that would allow Leerburg to create relevant training content that could be applied to everyone's unique learning style. We have finally stepped into a new world where this is actually possible.

With the advent of the internet came streaming video. Streaming video has opened another door to the world of dog training. It gives us the tools to instantly provide the amount of information that is necessary to teach complex skills. With streaming video we are no longer limited by how much information we can fit into a DVD. We learned that people did not have the attention span to watch a 4 hour DVD, but they do have the attention span to watch a two to five minute video on one specific subject.

Enter online training. For the past two and a half years our IT staff has been creating an online training platform tailored specifically to teach people how to train dogs. Leerburg Online University allows us to organize a series of short streaming videos, text, audio, and other visual materials in a systematic step-by-step training process. You can now watch a short video of an instructor explaining an exercise along with instructor and student demonstrations of that exercise. Through our smart phone video uploads you will have a chance to demonstrate the skills you have learned with your own dog and receive instructor feedback to help hone those skills.

Our goal from the beginning has been to put a hands on, interactive approach to online dog training. Our system allows you to decide what learning modality best fits you and your schedule. Students have the benefit of watching videos, reading the material, and listening to podcasts. Students have the ability to review the material and post any questions that may come up through the discussion forum or a private message. In addition to the weekly discussions and messaging, we offer live chats where students can log on and talk directly to their instructors. What sets Leerburg Online University apart is the option to upload videos directly from their smart phones for the instructor to review and critique.

We launched our first online training course in February of 2014. Over the next six months we produced five online courses with several more in various stages of production. Our students have continued to provide positive and helpful feedback throughout the entire process. Through that feedback we are continuously updating and improving not only the material within each course, but also the training system itself. The goal of our training system is for anyone, regardless of your computer skills, to be able to log on and understand how to navigate through a course. Meanwhile, our courses are ever improving by incorporating the frequently asked questions brought up in previous courses. We welcome you to read some of the student comments about their first online training experiences. We feel that they speak for themselves and are a true testament to our instructors and our IT staff.

Our goal has always been to stay innovative in an ever changing dog training environment and community. Our new online training system will continue to put trainers from all over the world together and has the potential to revolutionize dog training. In 1978 Ed Frawley may have never imagined a world where he could help train a dog in a living room in Australia through a computer; however he was able to foresee a future in dog training that none of us could have ever imagined. That future is today and Leerburg Online University is at the forefront.

XLarge	34" - 41" Girth	#1070XL	\$61.99

Balance & Pulling Harness

Pick Your Patches & Color!

This harness design began with a need for a form fitting harness that stays upright on the dog while pulling a wheelchair and giving balance to the handler when they transition from the chair. A dog's strength for pulling comes from the chest and our Pulling & Balance Harness is a safe and effective way to utilize that power. Unlike pulling a wheelchair that is attached to the dog's collar this harness takes the stress away from the dog's neck and it is much safer for the dog. This harness will fit up to a 26" - 40" girth measurement. More info available online. leerburg.com/1551.htm

#1551 \$69.99

Search & Rescue Harness

Simply the best, there is no other quite like it. Yellow reflective tape for high visibility. 2" double ply webbing. 2" contoured snap buckle. 2" heavy welded D-ring is protected against the dog's back. Adjustable girth strap. Where to Start

Introducing a new dog into your home can be a very exciting time, but without proper preparation, that excitement can quickly turn to stress — which is why Leerburg would like to help new dog owners along on their journey.

“I just got a new dog. What do I need?” This is one of the most common questions we are asked. With that question in mind, we have developed several web pages to help prepare new dog owners for the road ahead. By organizing the equipment, management techniques, and training material that we recommend, we hope to give new dog owners a place to start. leerburg.com/wheretostart.htm

6.2 million puppies born in the United States each year

What do I need for my new puppy?

If one of my friends had never raised a puppy before and came to me for help, I would explain that there are 5 areas they need to think about:

- Handler Education
- Management
- Leashes & Collars
- Feeding
- Toys

No one has an unlimited budget, and nothing is more irritating than purchasing something that turns out to be a waste of money. With that in mind, we have created a web page to help new puppy owners get started out on the right track. leerburg.com/newpuppy.htm

What do I need for my new rescue dog?

According to the ASPCA, roughly 3.9 million dogs enter shelters each year. Less than half, about 1.2 million, of those dogs will even make it to adoption. Of those that do, an average of one in five is returned to a shelter.

These numbers are appalling, which is why Leerburg is devoted to helping people prepare for a new addition to their family. With a little bit of education, the right equipment, and a good game plan, we can help ensure that the dogs that do make it into homes stay in those homes.

If you are planning on rescuing a dog in the near future, I recommend you start preparing early. A little bit of knowledge and the right equipment could save a dog's life. leerburg.com/adopteddog.htm

1 in 5 dogs is returned to a shelter

New in 2015, we plan to release an online course titled *From the Shelter to the Home*. The goal of this course will be to help people through the process of rescuing their new family member. The course will start with selecting the right dog for you and your family, and will cover everything from properly introducing the dog into your home to managing the dog with basic training. Our goal with this course is to see that 1 in 5 statistic drop to 0. leerburgonlineuniversity.com

Socializing Puppies: How to Socialize Your New Puppy

Written by
Ed Frawley

We receive emails on a weekly basis that deal with problems new puppy owners have as a result of poor socialization. Most of these people feel they have been doing the right thing with their puppies when in fact they have created the problems they face. Socialization is one the most misunderstood areas in dog training.

The old school concept of socialization meant, take your puppy out and get it used to interacting with people, places, and other dogs. However, when we explain that this thinking is exactly what causes many of the behavioral problems people face with new puppies or even adult dogs, they ask "How can I get my puppy socialized if I can't let him go out and play with other dogs?" People will also say that they thought the way to deal with a shy puppy was to take it out and allow strangers to give him or her treats, this way the puppy will see strangers as treat machines and not something to be afraid of.

I have to admit; years ago this was exactly how I recommended people socialize their puppies. The only problem was over time I learned I was wrong and there were much better ways to socialize dogs.

Our Definition of Socialization

Our definition of socialization is to get our dogs comfortable with new places and circumstances. We want our dogs to be indifferent to people places and things. I want my dog to look at strangers as part of the environment and something to ignore not something to interact with.

When we take our dogs into strange, new environments we want our dogs to willingly look to us for leadership and direction. We expect our dogs to engage with us not the environment.

How We Socialize Our Dogs

We start socialization the minute we get our dogs. It begins by showing the dog that we control every minute of its life. This is done through the use of leashes and dog crates. We also show the dog that we are fun to be around. This is accomplished through the use of food treats. As a general rule, small puppies have more drive for food than for toys. With most working breeds this will change over time if the triggers have been met at a young age, but that is another article. We train with verbal markers. We offer several DVDs, as well as articles, on our website that break down the concepts behind marker training.

The work with puppies begins with "charging the mark" and establishing a value for food rewards. This only takes a few days. Once we have it, we begin to work on the process of "engagement."

Engagement

The core of our program on socializing your dog deals with engagement. When a dog is engaged with his handler, the dog is totally focused on the handler and ignores everything in the environment around him. This is a learned endeavor. Very few dogs will do this without training; if I had to put a number on it I would say 1 in 10,000. The vast majority of dogs need to go through training steps to get and stay engaged with their handler.

We start our puppies on engagement with high value food treats. I don't mean cheap dog biscuits. I mean small pieces of meat or some of the high end all-natural dog treats we sell. When the dog is looking at us, we mark the behavior and reward it with a food treat. We also work engagement when the puppy is hungry – this means before we feed the dog. They quickly learn you are a cool owner that is fun to be around.

The process of training engagement is beyond the scope of this article. I could write a book on it. We produced a 2 week self-study online course with our good friend, Forrest Micke, titled *Teaching Engagement Skills*. I recommend every new dog owner take the time to go through this course. Having a well engaged dog is going

to start your training off in the right direction and put you light years ahead of your peers.

We also produced a DVD with our friend, Michael Ellis titled *The Power of Training Dogs with Food*. This DVD has a large section on how to develop engagement with your dog.

Engagement begins at home in a distraction free environment, such as your kitchen, garage, or back yard. As the dog learns to become more and more engaged with the handler trainers can begin to take the dog to new locations and working engagement in new places. In the beginning, we select distraction free environments. As the dog learns that new locations mean fun things happen between it and its owner the level of distractions are increased.

The goal of the trainer is to go to as many different locations as possible with their dog and work engagement drills. As the program progresses the handler looks for locations that offer more outside stimulation and/or stress to the dog. This will become evident because it will become more difficult to engage the dog. When that happens, back away from the distraction to the point where you can get and keep the dog engaged. Once that happens, you continue to go back to that location and work on shortening the distance to the distraction.

The Problem with Strangers

The problem with allowing strangers to meet and greet your dog is there are very few people who understand this work. They can't read the body language of a puppy to understand when it is stressed or fearful. This can easily result in putting a puppy into fight or flight. Once that happens, you have a big problem to fix and it is a lot easier to avoid a problem than to go back and try to fix one, which can sometimes take weeks and months.

Learn How to Deal with Strangers and Your Puppy

The correct way to act when around someone's new puppy is to ignore the pup. Don't invade its space; don't look at it; don't talk to it; and don't try and pet it. Your job is to find a way to tell EVERYONE that approaches you when you are walking your dog exactly that.

For every one person that understands this concept, there are 100,000 that do not. I am always amazed at how many people out there ignore your warning and walk right up to your dog and try to pet it. When that happens, it is time to get real serious with people. I am far more concerned about my dog than I am about some idiot that can't think, listen, or follow directions about my dog.

Too many new dog owners are afraid to be rude to someone who invades their puppy's space. Those are the people who end up with a pup that becomes fearful of strangers. Fearful puppies often bark at people (because their pack leader failed to protect them), which results in the stranger backing off. This only teaches the pup that acting aggressively works to drive scary people away. New owners then wonder why their pup goes off on everyone he sees. It is because the owner trained the pup to do this.

It is a lot easier to tell people who won't listen to BACK OFF! Don't worry about their feelings. They certainly are not someone you want as a friend if they ignore you.

What to Do When Strangers Approach your Pup

The correct way to handle strangers is to always be prepared with a bait bag full of high value food treats. If you see that your pup is a little concerned about someone, then get the pup engaged with you. It is your job to become more interesting than the stranger. If the food rewards are high enough, the pup will look at strangers as the trigger for their owner to play with them and give them really cool treats.

The same thing goes with new places that stress your puppy. If you see the pup getting a little nervous, get him engaged with you. Teach the pup that new, scary places are not that bad after all because they are places that they get to play with their owner and get delicious dog treats.

Why Not Let Strangers Feed Our Puppy

So why not let strangers give your puppy treats? A good question with a couple of answers:

1. Allowing other people to give your puppy treats only turns other people into distractions for your dog. You are essentially training your dog to ignore you around other people places and things. Where is the sense in that?
2. If you have a dog that is fearful of strangers you run the risk of the dogs food drive over powering the weak nerves. When that happens, the dog will go to the stranger. He will then take the food and once the food is gone, the dog is still left with his concern about the stranger. Quite often these dogs will then bite because aggression has become a learned reaction, it makes strange people back away from them.
3. When people have a fearful dog and they allow strangers to give their puppy or dog food treats the dog learns to expect it.

There will come a time when you don't have a food reward to give to a stranger that is going to make your dog nervous. Don't kid yourself that the dog does not realize this. In its head, it is thinking "I WAS RIGHT! THIS PERSON MAKES ME NERVOUS AND HE IS NOT ONE OF THOSE PEOPLE WHO GIVES ME TREATS, SO I AM GOING TO NAIL HIM!!!"

The dog owner is then in a position where they have a fearful, aggressive dog and they wonder why. The fact is that what they have done will amplify the fear aggression in the dog.

What About Strange Dogs?

Let's start with the fact that it often only takes one instance where a dog is attacked by another dog for that dog to become dog aggressive for life.

New dog owners do not have the experience to recognize the signals and signs of dominance and aggression in a strange dog. For these two reasons, new puppy (or new dog) owners should NEVER allow strange dogs around your dog - NOT EVER!

Those who chose to ignore this advice need to read the article I wrote titled *How to Break Up a Dog Fight without Getting Hurt*. Have a look at the dog bite photos that have been sent to me from people who read the article after trying to break up a dog fight and then going to Google to find out what they did wrong.

There is nothing wrong with your dog having other dog friends, but the way to start your puppy learning manners around a friendly dog is to first find someone who thinks like you about dogs. Then look for a dog that is aloof to other dogs. I want a dog that ignores my puppy. In the beginning, the best of all worlds is to find a dog that doesn't want to play and is totally aloof to my pup. If I keep my pup on a long line or zip lead I can work some engagement around the other dog. The perfect adult dog is one that will put a puppy in its place for inappropriate behavior without actually hurting it. This has to be done before the pup is 8 to 10 months old. It goes without saying that this work is always done when the owner is there to supervise.

Putting two strange adult dogs together is never recommended unless you follow

the correct protocol and this article is not the place to talk about that.

I wrote an article on why dog parks are a bad idea. If you are a new puppy owner, you may want to visit that article. With that said, you can use a dog park to help train your dog. The way to do it is to stay outside of the fence with your dog and work engagement exercises without risk to your puppy.

What If a Strange Dog Approaches Us On a Walk?

Your job as a new dog owner is to learn how to become a pack leader. Most people are not born pack leaders, but anyone can learn to be one. I have written an article on this and done training DVDs on it.

Part of the responsibility of a pack leader is to protect the lower ranking pack members. This means it is your job to protect your dog if it is approached by another strange dog. If you walk in an area where there are strange dogs, carry one of many deterrent devices such as a stout walking stick, compressed air, or bear spray.

When a strange dog approaches you, step between your puppy and that dog. Sound very convincing and threaten the other dog to turn and leave. If it comes close, don't hesitate to use the stick or spray. I will guarantee you if you crack a strange dog over the head with a stout stick, it will remember exactly who you are and will never come after you or your dog again. Not only that, but in doing this, you just gained a great deal of respect from your dog.

Here again, I need to bring up the point that far too many people are concerned about hurting other dog owners' feelings. If you need to do this because another owner refuses to control their dog, well so be it. There are enough idiots in the world and I don't really care what they think about the crazy guy with a big stick.

Socializing Begins at Home

The fact is, a well socialized dog starts right in your home. Teaching your new dog manners and how you expect it to live in your home sets the stage for your relationship.

We now raise our puppies in an ex-pen and a dog crate in the house. I am in the process of raising a Mal puppy at the moment. He currently is 6 months old and has lived in the ex-pen since he was 8 weeks old.

I am lucky because I can have my ex-pen right next to my desk and my office has ceramic tile in case of any house training mistakes. Because of this arrangement, there have been very few. When the pup is not in the pen, he is in his dog crate, but he spends most of the time in the pen.

This is where I taught him not to jump up on the sides of the pen when people come in. If he jumps up, we simply say NOPE or YUCK and step back. They quickly learn that there is no interaction when they are jumping up.

The beauty of this system is that we can take the pen into our living room where we have our adult dogs and the puppy can be part of the family without the constraints of a dog crate. He can lay in his ex-pen while the older dogs lay around as we watch TV. This is just a great way to teach a puppy not to be wild in the home.

In addition to this, we never allow our puppies to be off lead in the house. When they are out of the ex-pen they are on a lead. We use one of our thin puppy or drag leashes that allow us to tether the dog to us at ALL TIMES. Allowing puppies to have free range in your home is a license for disaster. Puppies that are tethered to you can't get into the garbage, they can't sneak around the corner to pee or poop, and they can't jump up on visitors or kids. New pet owners think the leash is only for outside and nothing can be further from the truth. Using a tether in the house is a great way to control your pup and head off problems.

Herm Sprenger Prong Collars

Black Stainless Steel Prong

Stainless Steel Prong

Curogan Prong

Chrome Plated Prong

I call prong collars "Power Steering for Dogs." It is probably the most misunderstood training tool there is. So many people take one look at it and say "Oh! I could NEVER use that on MY dog!" Then when I explain how it's used and why it's used they call back and say "ED, THIS IS THE GREATEST THING!" When a prong collar is used in training, the handler must realize that a dog who required a level 8 correction before will probably require a level 2 or 3 correction with a prong. So a strong dog with too much drive for a small person to handle is now easily controllable without a lot of effort. If you are a new Schutzhund trainer or a police service dog handler, you will need a prong collar. Curogan is a copper-tin-alloy with a high copper portion and some additives which make the material strong, but without any nickel. Nickel is often responsible for allergic reactions of sensitive dogs and causes of some skin rashes. These chains avoid a discoloration of fair haired dogs. leerburg.com/prongcollars.htm

PRONG COLLARS A SAFETY SYSTEM for ALL Prong Collar Use

We have always recommended a backup collar be used along with a prong collar. We recently heard about a littermate to one of our dogs being killed when the prong came apart at the end of a training session. When the prong came apart the dog ran in front of a car and was killed. The owner did not have a backup collar on the dog. Unfortunately these kinds of SAD situations happen all too often.

So if you use a prong collar YOU ALSO NEED TO HAVE A BACKUP COLLAR on your dog - every time!!

The perfect safety procedure is to use a dominant dog collar along with your prong collar. I offer this advice to ALL those trainers who use prong collars.

It is not unheard of for a prong collar to come apart when you need it the most. By having a dominant dog collar on the dog at the same time as the prong this will never be a problem. Simply attach the clip on the leash to both the prong and the ring on the dominant dog collar.

Herm Sprenger Curogan Fur Saver Collar

Curogan is a copper-tin-alloy with a high copper portion & some additives which make the material strong, but without any nickel. Nickel is often responsible for allergic reactions of sensitive dogs & causes of some skin rashes. These chains avoid a discoloration of fair haired dogs. Less than 10% do react on Curogan with a discoloration. Imported from Germany. Short links are 15/16" long and 3mm thick. Long links are 2" long and 4 mm thick. leerburg.com/curogan_fursaver.htm

Ventlock Tailgate Lock

The Ventlock Tailgate Lock allows more ventilation into your car than just leaving windows open. It works by fixing the rear door or tailgate in a semi-open position and combined with a front window open just an inch or two, it allows free flowing air just where the dogs need it most - on their nose at the back of the vehicle. Another major advantage is that with the Ventlock secured between car and tailgate all but the most determined thief will be kept out. It takes only a few seconds to fit or remove and

the car can be locked in the normal way using either the key or central locking. Best of all it fits 99% of Estate Cars / Hatchbacks / Vans or 4 Wheel Drive vehicles fitted with a rear door. 4 inch shown below. More photos & info available online. leerburg.com/1332.htm

The Honest Kitchen provides natural & organic pet food products that promote nutritional awareness, environmental responsibility, and a sustainable community. Operated with foresight, thoughtfulness, insight and integrity, and will be accountable for all that we do. Their selection of fresh wholesome, human grade foods are much better than the cooked mixture of by-products, fillers and other processed ingredients being served to many unfortunate pets, day after day.

Seven completely gluten-free, grain-free diets for dogs are available. All products are 100% wheat free. All grains are certified organic. Meats are hormone, antibiotic free and our fruits and vegetables are guaranteed non GMO. Quinoa is certified fair-trade. One cup of dehydrated food will hydrate to make about 1 lb. of fresh food. A 10 lb. size holds about 43 dry-cups and makes about 43 lbs. of fresh food. leerburg.com/honestkitchen.htm
