BASIC DOG OBEDIENCE WITH ED FRAWLEY

DVD \$65 • STREAM \$60 • ONLINE COURSE \$65

UNIVERSITY.LEERBURG.COM/CATALOG/VIEWCOURSE/CID/5

In this course, you will learn how to use reward-based marker training as a communication system to turn the learning process into games in which our dogs are taught new behaviors (i.e sit, down, come, loose leash walking). This system allows the dog to understand exactly when they are doing something correctly and when they need to try again because they didn't quite get it right. Our system produces dogs want to do what we ask rather than feel like they are being forced to do what we ask.

This course details all the fundamentals of Michael's approach to obedience and the dog/handler relationship and helps the trainer build the "toolbox" they will use throughout the training process. It covers classical and operant conditioning, reward-based teaching systems, and the use of verbal markers for communication. It also focuses on building behavior through luring, spatial pressure, leash pressure, shaping, and more!

NEW COURSE MICHAEL ELLIS ON DEVELOPING A RELATIONSHIP WITH YOUR DOG

SELF-STUDY ONLINE COURSE \$75

UNIVERSITY.LEERBURG.COM/CATALOG/VIEWCOURSE/CID/159

Our new online course has over 50 videos (3 ½ hrs) of training information. Michael teaches dog owners how to develop the tools needed before starting to train behaviors. These tools are used to build a great relationship with our dogs.

This course deals with puppies through adult dogs. It covers: building a communications system with our dog, developing engagement, managing rewards, when to introduce behaviors in a training program, training rituals, when & how to introduce the leash and distractions, plus a lot more.

COMING SOON!

LEASH REACTIVITY WITH MICHAEL ELLIS

This new course was filmed at Leerburg in September with Michael Ellis. We anticipate the editing to be finished by the first of the year.

Leash reactivity is one of the most common behavioral problems dog trainers face. Michael Ellis breaks leash reactivity down so owners understand the reasons their dogs are reactive. He then teaches how to build the tools required to deal with the problem. This is going to be one of our most popular courses taught by one of the best dog training instructors in the industry.
